***Statistics of Taxation North Carolina. Department of Tax Research 1968***

***Systematic Research Collections in Anthropology 1977***

***Data Structures and the Java Collections Framework William Joseph Collins 2002 This student-friendly book is designed for a course in data structures where the implementation language is***

**Java.** The focus is on teaching students how to apply the concepts presented, therefore many applications and examples are included, as well as programming projects, which get students thinking more deeply. The author shows students how to use the data structures provided in the Java Collections Framework, as well as teaching them how to build the code themselves. Using the Java Collections Framework gives the students the opportunity to work with fully tested code. Also, since this is a standard library of classes, students will be able to continue to use it for other courses and as they move into industry. Another feature of this text is that labs are provided with the book. They can be used as open-labs, closed labs, or homework assignments and are designed to give students hands-on experiences in programming. These optional labs provide excellent practice and additional material.

**Special Collections in Libraries in the United States William Johnston 1912**

**The Comic Art Collection Catalog Michigan State University. Libraries. Special Collections Division 1993** This is the most comprehensive dictionary available on comic art. The catalog provides detailed information about more than 60,000 cataloged books, magazines, scrapbooks, fanzines, comic books, and other materials in the Michigan State University Libraries, America's premiere library comics collection. Each book or serial is listed by title, with entries as appropriate under author, subject, and series. Besides the traditional books and magazines, significant collections of microfilm, sound recordings, vertical files, and realia (mainly T-shirts) are included. Comics and related materials are grouped by nationality and by genre.

**Teach Yourself Programming With Java™ in 24 Days. Harry. H. Chaudhary. 2014-08-15**  
**Essential Java Skills--Made Easy! What Special –** In this book I covered and explained several topics of latest Java 8 Features in detail for Developers & Fresher's, Topics Like– Lambdas. || Java 8 Functional interface, || Stream and Time API in Java 8. This Java book doesn't require previous programming experience. However, if you come from a C or C++ programming background, then you will be able to learn faster. Learn the all basics and advanced features of Java programming in no time from Bestseller Java Programming Author Harry. H. Chaudhary (More than 1,67,000 Books Sold !). This Java Guide, starts with the basics and Leads to Advance features of Java in detail with thousands of Java Codes and new features of Java 8 like Lambdas. Java 8 Functional interface, || Stream and Time API in Java 8. , I promise this book will make you expert level champion of java. Anyone can learn java through this book at expert level. The main objective of this java book is not to give you just Java Programming Knowledge, I have followed a pattern of improving the question solution of thousands of Codes with clear theory explanations with different Java complexities for each java topic problem, and you will find multiple solutions for complex java problems. Engineering Students and fresh developers can also use this book. This book covers common core syllabus for all Computer Science Professional Degrees If you are really serious then go ahead and make your day with this ultimate java book. First Part- Teach you how to compile and run a Java program, shows you everything you need to develop, compile, debug, and run Java programs. And then discusses the keywords, syntax, and constructs that form the core of the Java language. After that it leads you to advanced features of java, including multithreaded programming and Applets. Learning a new language is no easy task especially when it's an oop's programming language like Java. You might think the problem is your brain. It seems to have a mind of its own, a mind that doesn't always want to take in the dry, technical stuff you're forced to study. The fact is your brain craves novelty. This Java Book is very serious java stuff: A complete introduction to Java. You'll learn everything from the fundamentals to advanced topics, if you've read this book, you know what to expect--a visually rich format designed for the way your brain works. To use this book does not require any previous programming experience. However, if you come from a C/C++ background, then you will be able to advance a bit more rapidly. As most readers will know, Java is similar, in form and spirit, to C/C++. Thus, knowledge of those languages helps, but is not necessary. Even if you have never programmed before, you can learn to program in

**Java using this book. Inside Contents (Chapters):** 1. (Overview of Java) 2.(Java Language) 3.(Control Statements) 4.(Scanner class, Arrays & Command Line Args) 5.(Class & Objects in Java) 6.(Inheritance in Java) 7.(Object oriented programming) 8.(Packages in Java) 9.(Interface in Java) 10.(String and StringBuffer) 11.(Exception Handling) 12.(Multi-Threaded Programming) 13.(Modifiers/Visibility modes) 14.(Wrapper Class) 15.(Input/Output in Java) 16.(Applet Fundamentals) 17.(Abstract Windows Toolkit)(AWT) 18.(Introduction To AWT Events) 19.(Painting in AWT) 20.( java.lang.Object Class ) 21.(Collection Framework) PART - II (Java 8 Features for Developers) 22. Java 8 Features for Developers – Lambdas. 23. Java 8 Functional interface,Stream & Time API. 24. Key Features that Make Java More Secure than Other Languages.

**Public History Faye Sayer 2015-02-26 Public History: A Practical Guide** explores history in the public sphere and examines the variety of skills that historians require in the practice of public history. It discusses how through various mediums of interpretation and presentation a range of actors, which include museums, archives, government agencies, community history societies and the media and digital media, make history accessible to a wider audience. It provides the reader with an overview of the wider-world application and communication of history beyond the classroom through core case studies for each sector that include ideas for best practice 'in the field'. This book offers an accessible and engaging synopsis of a topic that has not previously been covered. By focusing on an area of study that has changed substantially in the last decade, *Public History: A Practical Guide* presents a comprehensive outline of the practice of 'public history', and provides ideas for future methodological approaches as well as a reference point for planning professional development in order to gain future employment in these sectors. In the current economic climate, students need to understand the potential use of history beyond university; this book contains the tools and advice needed for them to get one step ahead in terms of knowledge, skills and experience.

**Guide to Hong Kong Medical, Health and Welfare Libraries and Information Resources Grace Cheng 1996-01-01** This comprehensive guide includes detailed information on the policies, services and facilities of about 80 libraries, and is a valuable resource for all those involved in medical, health and social welfare services in Hong Kong.

**Directory of Rare Book and Special Collections in the UK and Republic of Ireland Karen Attar 2016-05-31** This directory is a handy on-volume discovery tool that will allow readers to locate rare book and special collections in the British Isles. Fully updated since the second edition was published in 1997. this comprehensive and up-to-date guide encompasses collections held in libraries, archives, museums and private hands. The Directory: Provides a national overview of rare book and special collections for those interested in seeing quickly and easily what a library holds Directs researchers to the libraries most relevant for their research Assists libraries considering acquiring new special collections to assess the value of such collections beyond the institution, showing how they fit into a 'unique and distinctive' model. Each entry in the Directory provides background information on the library and its purpose, full contact details, the quantity of early printed books, information about particular subject and language strengths, information about unique works and important acquisitions, descriptions of named special collections and deposited collections. Readership: Researchers, academic liaison librarians and library managers.
